

STONESETTING

Creative director : Drew Mahlmeister

Designer: Maeve Collins

Notes from the initial build:

- It looks really good
- I like the colors, maybe increasing the contrast on the navigation bar could be helpful
- I like the background imagery, i wonder if they could be a different color, like not all blue, perhaps yellow or purple
- I think creating a more consistent page layout could be helpful in navigating
- You could make all the gem names all caps? Rather than all lowercase
- Making it responsive is the next step, but its looking so good so far!!
